Looking for a cheapening perspective?

Best: *Antimony*. "The antimony of the West is almost exclusively the Spanish 100 antimony from the mines of the Sierra de Guadalupe, in the state of Chihuahua," says James A. Allen, assistant professor of geology at the University of Utah. "Antimony is used in a wide range of products, from the manufacture of lead-acid batteries to the production of semiconductors." Allen says that the United States produces about 100,000 pounds of antimony a year, but imports 100,000 more.

Worst: *Antimony*. "The antimony of the West is almost exclusively the Spanish 100 antimony from the mines of the Sierra de Guadalupe, in the state of Chihuahua," says James A. Why Use It?

Bee-Quick

Does your team board agree? You'll agree more than you'd agree your board? Any good team agrees on a common vision statement at the very beginning of the project.

As you head off to the office, you'll be asked to provide a vision statement. As you're working, you'll be asked to provide a vision statement.

If you don't answer yet to one or more of the above questions, then you should use Bee-Quick. It's a simple, easy-to-use, and powerful way to create your vision. Use it for your vision, a team, a project, a business, a school, a church, a community, a country, a world.

No time to waste - use Bee-Quick to get your vision statement. No time to waste - use Bee-Quick to get your vision statement.

How does it work? You'll be asked to provide a vision statement. As you're working, you'll be asked to provide a vision statement.

How Does It Work?

Bee-Quick

First, Bee-Quick is a "one page" document. It's used with a team board. Vision is created by the team board. Vision is created by the team board. Vision is created by the team board.

At the beginning, you'll be asked to provide a vision statement. As you're working, you'll be asked to provide a vision statement.

Next, you'll be asked to provide a vision statement. As you're working, you'll be asked to provide a vision statement.
